

# SHELF TAG SUPPLY

Your #1 Source for Warehouse Signs, Bar Code Labels, Card Holders & Shelf Magnets

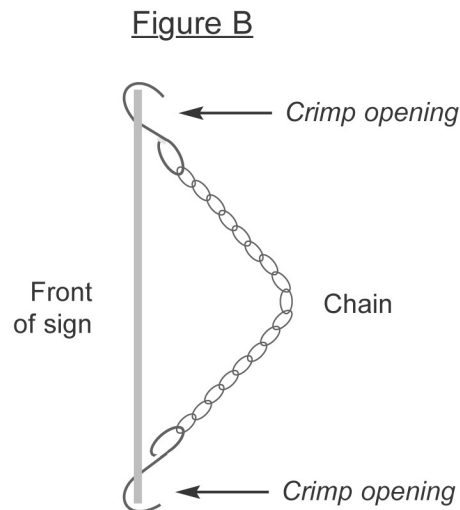

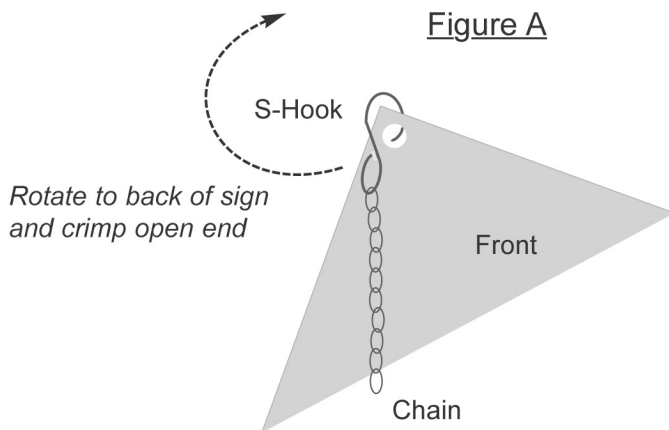

## Angled Sign Hanging Instructions

### Instructions:

1. Rotate open end of S-hook through hole until closed end (attached to chain) touches the back side of the sign. See figure A.
2. Crimp the open end to close the S. See figure B.

**IMPORTANT:** Make sure the crimped ends are to the back of the sign. Failure to do so will crack the plastic and lead to possible falling.
