## Dual Angled Sign Assembly Instructions

### Instructions:

Each sign has three section (sides) with only the top section having holes

1. Insert hanging clips (from bottom up as shown) into holes provided in top section - Figure A.
2. Align other two sides with text upright.
3. Remove adhesive backings (liners) and press sections firmly together - Figure B.
4. Signs of 18" and longer may require Edge Stiffeners - attach to top sign section only - Figure C.
